

## TeamViewer 9 Instructions

1. Download TeamViewer 9 here: [http://www.apssystem.com/support/TeamViewer\\_setup.exe](http://www.apssystem.com/support/TeamViewer_setup.exe)
2. Depending on the internet browser you are using, a window may pop up asking if you want to “save” or “run.” Select “run.” Else, wait for the software to download and then run **TeamViewer\_Setup\_en.exe**.
3. The TeamViewer 9 setup wizard will pop up. It will ask you how you want to proceed. Select “Installation to access this computer remotely (unattended).” Then select “Accept – Finish”

4. The wizard for setting up unattended access will pop up. Hit “Next >”

Unattended access

### Setup unattended access

This wizard helps you to setup TeamViewer so that you can access this computer anytime without being physically there.

Note: This wizard is optional. You can abort it whenever you want and open it later in via the menu "Connection" - "Setup unattended access".
